Updated April 2009

The Town of Southampton offers a wide variety of parks, sports fields, beaches and open spaces for the use of our residents and guests. Constant use of our public spaces necessitates that limited Town funds budgeted for parks be directed toward basic maintenance and operational needs before many aesthetic or optional improvements can be made.

The Town would like to have our residents consider providing funding for various improvements at our parks, as tax-deductible donations or as tributes to loved ones.

The following list of items is provided to give the public an idea of the type of equipment and improvements needed in various parks. Other items may be considered; however, final authorization is subject to approval by the Town Board and the Superintendent of Parks & Recreation as the item(s) donated must be compatible with the designated setting.

Thank you for your consideration.

Recreation
